The window decides, not the attacker

Attacker origin	11–15 s window	5–7 s window
Stockholm	**3 / 3**	**0 / 3**
New York	**3 / 3**	**0 / 3**
São Paulo	**3 / 3**	**0 / 3**
Mumbai	**3 / 3**	**0 / 3**
Sydney	**3 / 3**	**0 / 3**

Location changes cost, not outcome: read + write 2.1 s from Stockholm, 3.7 s from Sydney

Removing our own caution: published 1/3 → 3/3, led 0/3 → 1/3, captured 0/3 either way
